## How do we price?

We charge by volume - not by the time it takes to remove the junk.

Our pricing structure begins with a minimum charge and grows incrementally from 1/8 of the truck through to a full truck load. These costs vary by region based on dump and disposal fees. (See price list attached below).

In some cases, special recycling surcharges may apply, imposed by local and regional regulations – such as refrigerators and tires. Pricing is always discussed before the job is started.

Load Size	Cubic Yards	Cubic Feet
Minimum Load	X < 1.875	< 50
1/8	1.875	50
1/6	2.5	75
1/4	3.75	100
1/3	5	133
3/8	5.625	150
1/2	7.5	200
5/8	9.375	250
2/3	10	267
3/4	11.25	300
5/6	12.5	333
7/8	13.125	350
Full Load	15	400
1/4 Bedload	0.75	20
1/2 Bedload	1.5	40
3/4 Bedload	2.25	60
Full Bedload	3	80

With very dense materials like concrete or gravel, we may only be able to load the truck to the depth of one foot. In this case, we may need to charge bedload rates for safety reasons. Bedload rates use the following increments to determine pricing: ¼ bedload, ½ bedload, ¾ bedload and Full bedload.
